HENRY FIELD, HEIR TO RICHES. DIES SUDDENLY

Was Apparently Recovering From Operation, Has Relapse in Hospital.

SHARED IN \$200,000,000

Marshall 3d to Get Millions if Brother Has No

Henry Field, younger son of the late Marshall Field, Jr., and grandson of Marshall Field, Chicago's great merchant, died yesterday in Presbyterian Hospital following an operation for an abscess performed upon him last Thursday. His death was unexpected, for he had seemed to be improving.

Nevertheless, his wife and his older and only brother, Marshall Field 3d. hurried here from Chicago as soon as they heard of Henry's Illness, and were with him many hours a day. The at tachment between the two brothers frequently had been remarked. They had small chance to make other friends during a boyhood spent largely in travel, and they were bound together also by their common griefs,

Their father and grandfather died within six weeks of each other, the father by a mysterious gunshot wound, and it was only two years ago that their mother died. She had married Capt, Maldwyn Drummond of the British

Riches Awaited Field.

Henry Field never came to enjoy his share of his grandfather's \$200,000,000 the confident expectation of the state. He would have been 22 years old on the 18th of this month. By the will of his grandfather he was to have received \$300,000 when he was 25, \$300,000 when he was 30 and like sums when he was 35 and 40.

The board has been author tract for tennage to the line here and \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was 30 and like sums when \$25, \$300,000 when he was \$2

Since the death of Marshall Field in January, 1906, Henry and his brother have been dividing one-half of the net me of the estate. The other half of the net income has been allowed to accumulate and was to be paid to them when they attained the age of 45. When each attained the age of 50 the estate was to be divided, three-fifths to Marshall 3d and two-fifths to Henry.

The will also provided that if either. The will also provided that if either

DRY U.S. TO COST SWEDEN SENDS GERMANY U. S. ORE

STOPS FOOD, FUEL AND MUNITIONS;

HITS ALLIES AND NEUTRALS ALIKE

WASHINGTON, July 8.—An official report just made to the American Government showing the extent to which Sweden is furnishing supplies to Germany reveals that the Central Powers are receiving enormous quantities of materials that go directly into the manufacture of munitions. In exporting iron ore to Germany, Sweden, it is shown, has supplemented shipments with imports from the United States. What this Government will do to end this trade through operation of the export control act has not been announced, but some of the

Allies, it is known, are urging the United States to license no food exports to Sweden until a definite understanding has been reached with the Swedish Government concerning her exports to Germany. Iron ore shipments from Sweden to Germany, the report declares have reached a total of 9,000,000 tons in the last two years, all of it of the high grade required in production of fine steel. This, it is

declared, represents an amount equal to Sweden's entire pre-war export. In the first quarter of the present year, it is set forth, Sweden imported from the United States 16,000 tons of pig iron, while selling a great quantity of her own product to Germany. Her pig iron sales to Germany in two years, it is declared, have amounted to 250,000 tons. In addition to this, it is asserted, she has shipped to Germany 15,000 tons of ferro silicon and ferro manganese for hardening shells with large quantities of copper, zinc, manganese, sulphur and other

Germany, the report declares, has obtained from Sweden in two years fully 200,000 tons of wood pulp for use as a basis for cellulose, used instead of cotton for the manufacture of high explosives. Germany also has obtained from Sweden large quantities of ball bearings for use in the manufacture of war vehicles and submarines. The value of these shipments, the report declares, is at least \$75,000,000.

This short the current fiscal year. WASHINGTON, July 8 .- Reports persist that Germany is to increase the scope of operations of her U-boats and to announce formally that ruthless submarine warfare no longer will be confined to the

Having taken stock of the situation servative Senators have been casting out for some solution of the financial blem. They will not abate even the fraction of a step from the position as-sumed yesterday in the advance of the nation toward a prohibition basis and yet will not place upon the Treasury this tremendous burden. The solution most frequently and most

seriously suggested is that of amending the prohibition provisions by a return to the prohibition provisions by a return to the original Robinson amendment, which the Imperial Chancellor.

"The general impression is that very important events are likely to follow these developments."

The significance of the despatch is apparent when it is recalled that the Emperor of Austria has recently been upon very friendly terms with the King of Bayaria, to the intense dissatisfaction of the junkers, for the reason that the Bayarian leaders have been scattingly and openly criticising the Prussian attitude. The Munich press has been important events are likely to follow the simply forbade the use of foods, food products and feeds in the manufacture of potable distillates for the period of the war and then, by general agreement, again the basic law of the U-boat zone. This means that the U-boats are able to operate on a wider scale than within the proscribed limits in case it becomes example of all simply enlarge her scope of operations of the junkers, for the reason that the land will be forever "bone dry."

A number of Senators look upon this barred zone it is likely that Germany will simply enlarge her scope of operations of all. The certainty is upon the nation that means that the U-boats are able to operate on a wider scale than within the proscribed limits in case it becomes example of all.

A number of Senators look upon this barred zone it is likely that Germany will simply enlarge her scope of operations of all. The certainty is upon the nation that means that the U-boat zone. This means that the U-boat are able to operate having encountered one submarine to the Pershing expeditionary force, reported having encountered one submarine to the pershing expeditionary force, reported having encountered one submarine to the pershing expeditionary force, reported having encountered one submarine to the pershing expeditionary force, reported having encountered one submarine to the pershing expeditionary force, reported having encountered one submarine to the pershing expedition and the new of potent to the pershing expedition and the new of potent to the pershing expedition and the o

but adding that American munitions machinery was highly desirable.

"With regard to American help generally," said the Premier, "I lay down no specific programme. It will be simplest to say that all conceivable American aid is wanted in every domain. But the key to the solution of all our military and economic difficulties, is transport amelioration. In which it is impossible to do too much.

Sends Hearty Thanks.

"Send my hearty thanks for the American project, the despatch of the Pad Cross mission, as here we have the American project, the despatch of the Pad Cross mission, as here we have the form the Large of the protective measures taken by the Entente and the Withdrawals of the bonded liquor will be made in vast volume during the next withdrawals of the conded into the care which are the consumers retailers for industrial uses, but nevertheless an airrian Emperor and the King of Bavaria.

It is hardly possible that the entire bonded stock can be saved the entire bonded invoked. The Munical Proverse and in the certainty is upon the nation that the United S house supply before the law becomes

Food Bill Put in Jeopardy.

Senator Simmons admitted to-night that yesterday's action by the Senate had put the food bill in jeopardy. It was evident yesterday afternoon at the conclusion of the Senate session that the opposition has been increased rather than diminished by the action of the Senate in writing in the Smoot amendment. It is a question of great doubt as to whether failing to obtain unanimous consent for a vote on the food bill U-boats may lie in wait just outside as to whether falling to obtain unanimous consent for a vote on the food bill Senator Chamberlain now can muster the necessary two-thirds of the Senate to vote cloture into effect. If this should prove to be the case the debate will be illimitable.

Sanator Possessive Posses

Senator Penrose directed the attention will be able to come to American shores senator Penrose directed the attention of the public to-day to the fact that it was not alone the diminution of direct revenues from whiskey and kindred drinkables amounting to nearly \$640-, have been constructed for the particular 000,000 which the country would have to supply. He pointed out that the college of the particular purpose of coping with America's entry in the war. lateral revenues in the way of excess profits taxes, income taxes and other taxes collectible against individuals and corporations which must go out of business would cease and that the actual cost which yesterday's action by the Senate is apt to saddle upon the nation might run well up toward the billion dollar mark. While the Senate voted to make pro-

hibition of the use of foods, food products and feeds in the manufacture of distilled liquors operative thirty days after the approval of the food administration bill. the clause directing the President to purchase and redistill the liquor in bond is made immediately effective on the passage of the act. This was not an oversight, as many suggested, but en-

"The people of this country," said Sen-ator Simmons, "have little idea of the difficulty the Senate Finance Committee had in drafting the war revenue bill so that the taxes for running the war this year would not fall heavily upon the householder. We taxed corporation excess profits to the limit. We depended Another Drives upon whiskey for well over \$110,000,000, 000.

Is the Now that is chopped out. With the whiskey tax lifted out through the Senate vote on the Smoot amendment, by which distilled liquors must be taken over by the Fresident, the Finance Committee must find the way to substitute with the way to substitute the state of the way to substitute the substitute of mittee must find the way to substitute tor car that struck her while being connot only the \$110,000,000 lost through that source but to provide at least about 26 years old Jacob Blum, 28, of \$200,000,000 toward purchasing the 237 East Broadway, driver of the autostocks in bond the Government must take over.

The police are seeking the driver and
"But the problem goes far beyond occupants of an automobile which struck

that. In reality we must calculate on and perhaps mortally injured Mabel the entire loss from all the whiskey now in bond, which would aggregate some street, at St. Nicholas avenue and 146th thing like \$440,000,000. The Government street yesterday afternoon. The driver must therefore find at least \$640,000,000. Continued on Becond Page.

Than Half Rations, as Surplus Is Gone.

Special Cable Despatch to Tax Scs. LONDON, July 8 .- The British Foreign Office, replying to inquiries by correspondents, says advices from Germany indicate that the German agricultural barred gones but will apply to the high production for the present year will not seas generally. The German Admiralty exceed 40 per cent. of the normal crop. is understood to be contemplating this The statement is significant because the move to offset any agreement between neutral countries and the Entente Allies tween allied Governments have taken especial pains to inform themselves concerning the economic conditions, and particularly whereby Entente shipping is relieved by neutral shipping so that the aggregate number of vessels plying through the war the crop conditions, in the Central Emzone may be increased. As a next move

It has long been known that the agri-cultural conditions in Germany were of the gravest character, but this official in the game Germany is said to be considering declaring a submarine warfare the gravest character, but this official against shipping generally irrespective estimate is the lowest yet ventured. Out Banditry.

WOMAN KILLED BY MOTOR CAR. CHIRUARUA, Mexico, July 8.—By a decree which became effective to-day. the manufacture and sale of intoxicat-ing liquor of any kind in the State of Chihuahua is forbidden under severe about to board a Fourth avenue car at First street and the Bowery yesterday, an unidentified woman died in the moat penalties.

The decree was issued under direct orders from President Carranza, and is onsidered a war measure in furtherance of the efforts to stamp out bandliry and revolution.

'We Shall Safeguard All Fundamental Supplies," Says President.

EFFECTIVE ON JULY 15

Iron, Steel and Similar Raw Materials Also in Scope of Order.

WILL CUT PRICES HERE

Centralized Buying for All Allies and Probably for Licensed Neutrals.

WARHINGTON, July 8 .- President Wilon issued to-night a proclamation establishing a qualified embargo upon the exportation of food grains, meats, fuel and the most important war materials to all nations, whether they be neutral or belligerent, friendly or hostile. The embargo is to go into effect July 15 and it is qualified to the extent of permitting such exports as may be sanctioned by the Division of Export Licenses.

The Government thus exercises direct supervision over the goods to be shipped from the limits of the United States. with the power to make the embargo ar elastic as the officials deem warranted by the circumstances.

In addition to the qualified embargo

there is a firm belief that the Govern ment is considering the advisability ordering a complete embargo during period of sixty days upon all food ship ments. This period is expected to be fixed to give the country time to take stock of its own food supplies and to give neutral and friendly nations an oppor tunity to make known the approximate amount of their legitimate future re-

To Reduce Prices Here.

Two chief purposes are responsible for embargo order 1. To conserve the American food sup ply, with the consequent reduction in the prices to consumers of staple articles,

2. The prevention of the provisioning of enemy countries through excessive turn resell

The President's proclamation, after quoting the law empowering the Govern-ment to take control of exports, says: "I hereby proclaim to all whom it may concern that, except at such time or times and under such regulations and orders and subject to such limitations and exceptions as the President shall prescribe, until otherwise ordered by the President or by Congress, the following

"Coal, coke, fuel, oils, kerosene and gasolene, including bunkers; food grains, flour and meal therefrom, fodder and portations. guay, Venezuela or Turkey. America Comes First.

"The orders and regulations from time to time prescribed will be administered by and under the authority of the Sec-

country before new crops are harvested. Not only is the conservation of our prime food and fodder supplies a matter which vitally concerns our own people, but the letention of an adequate supply of raw materials is essential to our programme of military and haval construction and the continuance of our necessary domestic activities. We shall therefor arly safeguard all our fundamental supplies.

"It is obviously the duty of the

United States in liberating any surplus products over and above our own domes-tic needs to consider first the necessities of all the nations engaged in war of bread. The newspapers dismiss the incident with a paragraph.

The courts of Cologne in June passed our duty. The Government does not wish our duty. The Government does not wish to hamper them. On the contrary, it wishes and intenda by all far and equitable means, to cooperate with them in their difficult task of adding from our available surpluses to their own domestic supply and of meeting their pressing necessities or deficin. In con-serving the deficits of food supplies its Government means only to fulfil its obvious obligations to assure itself that neutrals are busbanding their own resources and that our supplies will not become available, either directly or indirectly, to feed the enemy."

Many Protests Likely

If the embargo on wheat is made absolute, even only for a temporary period, it certainly will provoke loud d occupants of an automobile which struck and perhaps mortally injured Mabel Nurse, 7 years old, of 306 West 146th street, at St. Nicholas avenue and 146th t street, at St. Nicholas avenue and 146th t street yesterday afternoon. The driver made no effort to lend assistance but increased his speed. Two men and two women were in the automobile.

Massacre of Jews Denied.

Stockholas, July 9.—In response to an inquiry by Ira Nelson Morris, the swedish Minister to the Swedish Minister at Constantinople telegraphs to the Swedish Foreign Office that, according may curtailment in the food supplies gomethed in Palestine are untrue.
